

Drive Solutions

Corr24 offers a variety of motor and drive solutions. In the product portfolio are DC as well as AC technologies.

For this european suppliers are used (e.g. Siemens, ABB, Lenze). However we can also offer other brands through our US subsidiary BHS Robotics / Chicago Electric.

Main Drive

Corr24 offers a replacement of the DC drive unit or the full change to AC technology.

Auxiliary Drives

For the aux. drives almost only AC technology is used.

- Glue Unit
- Preconditioner
- Incline Belts
- Bridge
- External Preheater

Benefits

- Replacement of obsolete components
- Avoiding downtime
- Higher speeds
- Availability of spare parts
- Modern technology
- Improved service
